

## Seeds of Hope

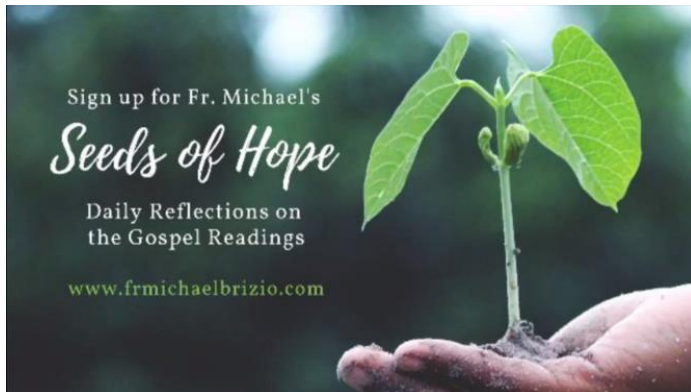

A good gardener plants seeds and then cares for them, offering nutrients and water as they grow and mature into a rich harvest.

And just like those seeds, our souls need the daily nourishment of the Word of God to flourish.

God's Word is life and light, and every moment we spend in it allows us to see with eyes of faith the mystery of God's love and concern for us.

In *Seeds of Hope*, Fr. Michael Brizio explores the Scripture reading for each day and considers what it means for our lives. *Seeds of hope* is free. It will arrive in your email inbox each day suggesting how we can live for God and follow in Jesus' footsteps.

I encourage you to share it with your friends and family.

You can sign up for *Seeds of Hope* by going to the website [www.frmichaelbrizio.com](http://www.frmichaelbrizio.com).

May God richly bless us, and may his Word bear abundant fruits of love, peace, and joy for the world.
